

STONEPEAK PRESENTS

BIOPHILIA AND BIO-INSPIRED DESIGN

This course is designed to share the knowledge of Biophilia, Fractal Beauty, and Color, and to demonstrate the principles of biophilic design and how Nature can be the biggest inspiration for architecture and design.

LEARNING OBJECTIVES

After participating in this learning course, the attendees should understand the importance of biophilia, how biophilic design can be applied, what materials and elements can be used for biophilic design, what fractal beauty is, and how color can affect the architectural space, and physical and emotional human wellbeing.

THIS COURSE OFFERS 1 CREDIT HOUR | CREDIT DESIGNATION: HSW

AIA-STONEPEAK | SPBBID
IDCEC-STONEPEAK | CC-119694

FORMAT:

Interactive PowerPoint presentation/workshop.

COST:

Free.
